

olive elliot

Software Engineer · AI Workflow Architect · System Architect
Asheville, NC · 919-917-4777

olivelliott48@gmail.com · github.com/olivelliott · linkedin.com/in/olive-elliott

Software engineer with 3+ years of experience designing and shipping scalable, local-first products. Focused on autonomous workflows, decentralized networks, and AI-driven systems that give people freedom to pursue what matters most. Active in open-source contribution, knowledge-graph architectures, and tools that support distributed communities. Brings a polymath perspective rooted in anthropology, sustainability, and creative problem solving.

EXPERIENCE

Software Engineer / System Architect / Project Lead Aktiga · 2023 - Present

- Lead system architecture and AI workflow design for internal tooling and developer platforms
- Authored and maintained developer documentation using Starlight (Astro), improving onboarding and cross-team alignment
- Serve as project lead coordinating engineering priorities, sprint planning, and delivery milestones
- Design autonomous workflow pipelines integrating AI agents to reduce manual overhead across product operations

Operations Manager The Care Collective · Feb 2021 - 2023

- Oversaw client-facing and business operations for a 19-person company including wholesale, scheduling, inventory, sales, marketing, and client relations
- Joined during an unprecedented growth phase and expanded responsibilities to match evolving business demands
- Recognized as an integral contributor to visionary business strategy while managing day-to-day execution

PROJECTS

Myco Persistent Cognitive Layer for AI Agents · 2024 - Present

- Designed a local-first agent memory system modeled on mycorrhizal networks, enabling persistent context across AI sessions
- Implemented knowledge-graph architecture (Node + SQLite + Ollama) for semantic memory retrieval without cloud dependency
- Released as open-source under Apache 2.0 to support the broader autonomous-agent community

github.com/olivelliott/myco ↗

Fathom Headless AI Dev-Cost Intelligence · 2025 - Present

- Built a headless CLI and MCP server that tracks and analyzes AI development costs across LLM providers in real time
- Architected a pluggable store and provider system, allowing teams to swap backends and models without code changes
- Shipped as a Claude Code plugin, integrating cost intelligence directly into developer workflows

Agenda Keeper Meeting-Management SaaS · 2024 - Present

- Developed a full-stack meeting management platform with real-time collaborative editing via TipTap/ProseMirror
- Integrated OAuth-based calendar sync to unify scheduling across Google Calendar and Outlook
- Built on Convex for reactive, real-time data with zero-config backend infrastructure

Trade Bot Autonomous Trading System · 2025

- Engineered an autonomous trading system shipping 4 milestones in ~5 days, from strategy design to paper-trading
- Implemented crypto intraday trading with strategy diversification, entirely local-first (SQLite + Ollama, no cloud)

Stemz Custom E-Commerce Platform for Music Discovery · 2023

- Developed a complex custom WordPress platform for Aktiga, transforming design into a fully functional e-commerce site with two types of custom ordering systems
- Engineered the backend using SQL and PHP, integrating WooCommerce for product management and transactions
- Optimized performance, enhanced user experience, and ensured scalability for future growth

SKILLS

languages	TypeScript, JavaScript, Python, SQL, HTML5, CSS
frameworks & libraries	Next.js, React, Node.js, Express, Convex, Astro, TipTap/ProseMirror, Tailwind CSS, WordPress
ai & autonomous systems	Ollama, Claude / MCP, Knowledge Graphs, Agent Memory Architecture, Autonomous Workflows
data & infrastructure	SQLite, MongoDB, MySQL, PostgreSQL, REST APIs, Git/GitHub, Vercel
focus areas	Decentralized Networks, Local-First / P2P Systems, Open-Source Development, AI Architecture

EDUCATION

Full Stack Web Development Certificate UNC Chapel Hill Coding Bootcamp · September 2022

- 6-month intensive, 450+ hours of full stack web development

Bachelor of Science, Cum Laude — Cultural Anthropology Appalachian State University · June 2019

- Minor in Spanish
- Minor in Sustainable Development
- Senior Honors Award for Applied Anthropology
